Terms & Conditions

Payment Policy

Unless other payment arrangements have been made, payment is due upon completion of all service calls that are a fixed rate including Activation, Backflow Tests, Winterization, and Standard Service Calls. If you cannot be home at the scheduled time, we require payment via credit card prior to the service call, or a check/cash must be left at the site for work to be performed. If no payment is made we will be unable to perform the work specified.

Non Cancellation

In the event an appointment is made and the dispatched service tech does not have access to the controller, backflow preventer and/or water tap, a non cancellation fee of \$49 will be billed. Please reschedule any appointment the previous business day to avoid this charge.

Prepay Agreements

Prepay agreements are transferable but not refundable. Any system on city water without an up-to-code backflow preventer will need to be brought up to code per local municipality requirement. Pro Irrigation holds no liability for irrigation systems damaged due to freezing taking place after the system is activated or before the system is winterized. Quoted prices do not include parts and labor for repairs. Prices are for the counties of St. Louis, St. Louis City, St. Charles, Lincoln and Jefferson only. All others, call for quote.

Service Details

Spring Activation

One (1) hour labor, anything over one hour will be billed separately at a standard service call rate per hour in 15 minute increments. Additionally the service technician will provide the owner with a written analysis of the irrigation system with recommendations targeted towards conserving water.

Mid-Season Tune-Up

Up to one hour of labor to Professionally program your controller for proper watering, as well as fine tuning head adjustments, cannot be used as a service call and system must already be activated.

Fall Winterization

Blowout of all pipes and associated components with an air compressor, up to one (1) hour to winterize included. If any repairs are needed to complete winterization they will be billed separately at a standard service labor rate per hour in 15 minute increments. Service agreements do not include any parts which if needed will be billed separately.

Backflow Preventer Test

All paperwork and tagging; test filed with appropriate county or water purveyor. If your backflow preventer fails the test it can be repaired or replaced and retested upon customer's approval. Retest and repair labor billed at an additional charge.

NOTE: To expedite backflow test report filing, payment is due at or before service is rendered.

VIP Maintenance Package

VIP Maintenance Package accounts will require a valid credit card on file with Professional Irrigation Systems in order to set up the account. It will be set up on auto pay for your VIP Maintenance package annually. By joining the program you are authorizing future payments for your VIP Maintenance Package in order to keep your account active. Future charges will be charged to your account on the anniversary month of when you originally set up your VIP Program account. Completed and approved service work will be invoiced and charged at the completion of the work. Cancellation of the program can be done at any time by notifying Professional Irrigation Systems in writing. Any non-used services will be retained as account credit for use on future services and are not refundable.

2019 PRICES

For anyone not wishing to sign up for a Service Package, the 2019 prices are as follows:

Spring Activation: \$88.00

Backflow Preventer Test: \$88.00

(Test only, water must be on: St. Peters City residents add \$10, St. Charles City add \$19, St. Louis County \$15, & St. Louis City \$60 for additional filing fees.)

Mid-Season Tune-Up: \$88.00

Fall Winterization: \$88.00

Standard Service Call: \$88.00
